#### GENERAL DRAPER'S VIEWS. Why He Is So Opposed to Recogniz-

ing Cuban Independence. against interference by the United States with the government of Spain in Cuba, pending the present season for military operations, is made by Gen. Wm. F. Draper, | to state that I was incorrectly reported." of Masachusetts, who is one of the subcommittee of the House charged with the consideration of resolutions relating to

Cuba. He said to-day: "My standpoint in regard to Cuba has not changed since the last session of Congress. It is my feeling that it is time to ecognize independence when, in the first place, there is a government, and when, n the second place, that government has shown its right to be considered an independent sovereignty. It seems to me that there is nothing in the island of Cuba in opposition to the Spanish forces, except rtain armed bodies of men. each under its own leader, and with nothing approaching a civil government. If we are to take the message of President Cleveland as our authority-and that is the only trustworthy authority that I know of-it must be admitted that there is not anywhere in Cuba, outside the Spanish lines, a civil govern-ment which is seriously undertaking to exercise its functions. The claims put forth by the insurgents cannot be accepted as degree conclusive in these matters. Take, for instance, this matter of the supposed death of Maceo. The insurgents said, in the first place, that he was killed by treachery, and in the second place that he was not killed at all. The Spanish ac-counts, on the other hand, declared that e was killed in a fair fight. I am in clined to accept no reports from Cuba that are not official as a basis of action. I think he incoming administration should have the privilege of deciding what course it desires to take in regard to its foreign pol cy, and that the new President should not inaugurated with a war upon his hands with an important foreign power, caused by the action of the outgoing Congress."
"Do you believe that Cuba will benefit by becoming an independent government?"

"I do not," General Draper replied am not confident that the new government would maintain civil order, and the securperson and property under equal laws for all citizens of the island and for ectively than the Spanish government. I family to the island of Cuba they would be safer under Spanish rule, bad as it is said to be, than under such rule as would be instituted if the insurgents should succeed and our government should take possession of the island."

"The alternative for securing orderly overament then, you think, is between panish rule and American?" "Exactly." was the reply. "The United States ought to deliberate more carefully. noreover, before themselves taking posses-sion of the island. American control would involve a great many obligations under a variety of heads. One of the objections of the insurgents to Spanish rule lies in the fact that the franchise is limited to 53.000 voters out of perhaps 350,000 adult males. They apparently desire universal suffrage. Presumably they would not renounce this desire if the island became a part of the United States. They would then bring a new element of corruption into the Union, in case Cuba became a state, and they would be in a constant state of irritation if the island were kept in a territorial con-dition. Of course, the possession of such territory would involve the maintenance of a military force, the fortification of imporant strategic points, the increase of the naval equipment in the island, and, indeed, nearly the entire mechanism by which spain endeavors to protect Cuba and maintain orderly government. There may be a condition which will force us to take possession of the island, but it ought not to be done without due consideration of the serious problems which such a population and such territory would force on the attention of a representative republic."
"Do you not fear the disturbance of business confidence if the Cameron resolutions are passed by Congress?" was asked.
"Oh, yes," said General Draper. "It is
evident that this shock to confidence has een felt, even by the passage of the resto me that our business men have already suffered enough from internal troubles without adding this external on In case of war we should expose our gold standard to hazard and thereby endanger many of the results of the recent elections. We should compel increased issues of bonds for war purposes, as well as for the main-tenance of the gold reserve, and we should open the door to a big increase of the pension roll and to the disturbance of our

#### DELGADO'S LIFE IN PERIL. State Department Urged to Prevent

Snap Action by Spaniards. WASHINGTON, Dec. 24.-The State Department has been requested to interest fiself in the case of Enrique Delgado, an American citizen, reported to have been captured by the Spaniards while lying wounded in a Cuban hospital and believed to be in danger of summary execution. A representative of the New York Mail and Express waited on Secretary Olney to-day and claimed the protection of our government for Delgado, whom he described as a legitimate correspondent of that newspaper and in no sense a combatant. Telegrams also have been received by Secretary Olney from some of Delgado's relatives in New York, notably from W. E. D. Stokes, begging him to act at once to rescue the man from the peril in which he stands. The department so far has received no official news of the arrest, but in compliance with these requests instructions have been cabled acting Consul General Springer at Havana to make inquiry immediately into the facts and do whatever lawfully may be ne for Delgado. It also happened that Senor De Lome, the Spanish minister here, called at the State Department and Secretary Olney took advantage of the opportunity to bring the matter to his attention with a view of preventing snap action in

The matter was laid before Secretary Olney through the following dispatch, signed by R. E. A. Dorr, publisher of the New York Mail and Express: "Harry Deldo, the correspondent of the New York Mail and Express, who reached Cuba early this month, was captured on Dec. 15 in a hospital camp of the insurgents in Pinar del Rio province. He is an American citizen who has a passport. He was unarmed ind not uniformed. He had a letter stating his authority to act as correspondent of the Mail and Express, a letter of introduction to Maceo and a letter of introduction to a Spanish general. He had tramped two hundred miles from the coast to the place where he was captured. He has been taken to Havana and unless already executed is in Moro Castle. Make strong representations to State Department this morning, urging them to cable to Havana to release and expel from island, f they choose, or to at least delay execution until further representations are forty years old.

The New York Mail and Express says to-day: "Enrique Delgado, an American citizen, is a special correspondent of the Mail and Express, detailed two months ago years. He was born in County Mayo, Ire- as well as the retail dealers; also, an to join the insurgent army in Pinar del Rio. Failing to reach General Maceo, Mr. Delgado was to have joined, if he could, the Spanish forces in the field. This alternative did not become necessary. The correspondent, who was landed in Cuba one of the expeditions from this country, went strictly in his capacity as a news commissioner for this newspaper, for the purpose of telling the truth just as found it. When he left here he carried letters of introduction to Maceo and to another Cuban general. When captured these letters were found on him, together with an order from Maceo to the prefect Las Tumbas, commending the bearer to his consideration and courtesy. These documents could scarcely be regarded as

Deigado Still Alive.

HAVANA, Dec. 25.-The correspondent of the Associated Press has made special inquiries in official circles regarding the condition of Mr. Delgado. It is learned that Mr. Delgado was formerly a purser on a Ward line steamer, and, according to official information, afterward a filibuster, and still later accorded the title of major of artilery on Maceo's staff. He was recently panish forces under General Malguizo in le province of Pinar del Rio, with Amer-ans and Jermans, and was brought to ans and ermans, and was brought to tenderly cared for at the Spanish tal of San Ambrosia, Mr. A. PROCTOR IS CONSERVATIVE.

of Cameron's Resolution. NEW YORK, Dec. 24.-Senator Redfield Proctor, of Vermont, was asked to-day whether he thought Senator Comeron's resolution in favor of recognizing the independence of Cuba would pass soon after the holidays. independence of Cuba?" the reporter asked. "I will say that I was incorrectly reported as being in favor of the resoluion. The fact that this administration is drawing to a close and that a constitutional question has arisen between Congress and the executive will have a tendency to make senators conservative. Many who might otherwise take a decided stand in regard to Cuba will now follow a conservative course and endeavor to keep matters in abeyance until the new administration comes in. I do not care to discuss the question at issue between the executive and legislative branches. It will receive due attention, no doubt, in the debates that will follow after the holidays." "Do you think Senator Hale and the

senators against the resolution will filibuster and delay the vote, say until March 4?' Senator Proctor was asked. "I do not think there will be any filibustering at all, but the debate will no doubt consume time. My impression is than a few hundred dollars' worth of that a vote will be reached long before goods, and the contents of the second and March 4. The conservative element in the Senate will be against precipitate action, and, as I said, the fact that the present administration has only a few months more to exist will cause many to pursue a conservative course.'

Suicide of an Inventor.

ST. LOUIS, Dec. 24.-Albert A. Metzieke. aged forty-four years, a German, with a fine education and a bent for invention, committed suicide to-day by shooting himself in the head. It is thought the deed was committed while he was insane. For several years, until recently, he has been an inmate in an insane asylum. Three years ago he invented a street-dar fender. He told another man of his design in order to have his project adopted commercially. He claims that this man had the design patented in his own name and robbed him of all credit and profit. Metzieke brooded

over this until his mind gave way. Mistook His Guest for a Burglar. SISTERSVILLE, W. Va., Dec. 24.-Delwood Haven, a worker in the oil field, was the guest of his uncle, Allen Whiting, last night, and during the night went to the kitchen for a drink. There was a little light in the kitchen and Whiting, seeing Haven and supposing that he was a burglar, fired. Haven lived a portion of the night. He was to have left to-day for his home, in McKeen county, Pennsylvania, to

spend the holidays. Attempted Murder and Suicide.

FIRE-HAUNTED

ANDERSON'S BIGGEST BLOCK He Is Not Enthusiastically in Favor BURNED, WITH LOSS OF \$80,000.

> Rev. Harwell Will Go to the Insan Asylum-Decision at Bluffton Against

> > Two Marion Citizens.

ANDERSON, Ind., Dec. 24.-Fire wiped out the largest business block in Anderson this morning. It was known as the Loeb-Brunt building, containing the department store of Rawlings, Haynes & Co., the shoe store of J. W. Maag & Son, the offices of Insurance Inspector W. P. Newman, the Columbia Real Estate Company, the North Anderson Land and Gas Company, the city engineer's office and the home of the Columbia Club. The net insurance loss is \$55,000, though the estimated entire loss is \$80,000. The fire originated in the basement of Rawlings, Haynes & Co.'s store and was not discovered till a few minutes before 6 o'clock. The fire was beyond control for a time, and the water pressure was weakened by opening four large elevator gates operated by city water pressure. In a short time the three-story structure was in ruins. It was impossible to save more goods, and the contents of the second and third floors were totally destroyed. The spot where the building stood is the most unlucky in Anderson. It is in the business center of the city and this is the third time fire has destroyed the buildings erected there. In the fall of 1884 the new opera house that had just been opened and erected at a cost of \$85,000 by Major Doxey was burned. Major Doxey headed a company that rebuilt the structure, costing \$65,000, and that burned in March, 1893. The walls and ground were then sold to Messrs. Louis Loeb and A. J. Brunt for \$50,000, and they expended \$25,000 on the structure that burned to-day. The Rawlings, Haynes & Co.'s loss is placed at \$41,000, with \$27,000 insurance. J. Maag & Son place their loss at \$4,000, with \$2,000 insurance. The other losses, including that of the Columbia Club, is estimated at \$10,000, with \$5,000 insurance. The insurance losses, as far as learned, are distributed as follows:

On building-The Home, \$2,500: Phenix of Brooklyn, \$2,500; Fire Association, \$3,500; North American, \$1,500; Pennsylvania, \$1,000; Niagara, \$2,500; Scottish Union, 500; Pacific. \$1,500. On Rawlings, Haynes & Co.'s stock-Re-liance, of Philadelphia, \$1,500; Western, of Toronto, \$2,500; Northern, of London, \$2,-500; Continental, \$2,000; Agricultural, \$2,-500; Philadelphia Underwriters', \$3,000; Delaware, \$1,000; the Sun, \$1,500; Phenix of Brooklyn, \$1,500; Manchester, \$2,000; German of Freeport, \$1000; Milwaukee Mechanics, \$1,500; St. Paul, \$2,000; unknown,

#### CAMBRIDGE CITY ALIENISTS Testify that the Rev. Harwell Is Insane, and the Jury So Decides.

Special to the Indianapolis Journal.

RICHMOND, Ind., Dec. 24.-The Rev. J. H. Harwell, the Cambridge City Methodist minister held here for issuing worthless checks, was declared insane to-day at the instigation of his friends. He will thus be sent to the asylum, and not to prison. Rev. Harwell was examined and maintained that he could see nothing out of the way about his transactions here on the day of his arrest. He said if he managed to have money in the bank to meet the checks when they were presented he could not understand why the transaction was not business-like. He acknowldged that he had issued checks for sums as small as 25 cents. The commission decided that he is of unsound mind, his mania being the issuing of checks, which he was known to have done even when he had money in his pocket to pay the bill presented. Application for his admission to East Haven Asylum will be made. During the proceedings Rev. Harwell sat beside his wife and kept up his manner of assumed indifference. His wife wept, but he showed no concern for her. In view of the fact that he was found to be insane it is claimed his resignation from the church and ministry is noneffective, and that he is still a member of both. He will be detained in the county jail until admitted to the asylum.

#### TWO BURGLARS TRAPPED. Plot to Rob a Monticello Store Frustrated by a Barber.

Special to the Indianapolis Journal. MONTICELLO, Ind., Dec. 24.-Two Chicago crooks, giving the names of Frank Davis and Harry Nash, on the plea of guilty were each sentenced to-day to six years in prison. The crime was committed at 11 o'clock last night. Yesterday afternoon one of them entered Rupert Brown's barber shop for a shave and there met Edward Jones, a barber. The stranger was known to Jones as Frank Smith, with numerous aliases. He is a notorious crook. Returning to the shop in the evening he player, died to-day. The police are lookrevealed the plan for a raid on Rudmensky's dry goods store and invited Jones to assist, promising him a third of the plunder. Amendment to Nicholson Law. Special to the Indianapolis Journal.

HAGERSTOWN, Ind., Dec. 24.-Numerous temperance leaders here made a determined effort to prevent saloon keepers obtaining license, and failed, mainly because it is believed by many that a considerable number who are inclined to favor temperance reform could see but little if any good to result from prohibiting the retail while letting the quart shops run. Hon. E. B. Reynolds, representative from this county, proposes to introduce an amendment to the Nicholson law that, if made a law, will prohibit the quart shops amendment changing the present method of remonstrance to an election by secret ballot, to decide whether intoxicants shall or shall not be sold for a period of two years. Many leading temperance men of this county have no doubt about the county voting against the saloon could such an amendment be added to the present law.

# Faced One of the Victims.

Special to the Indianapolis Journal, GREENCASTLE, Ind., Dec. 24.-Charles Gray, who is under arrest on a charge of murdering William E. Counts, at Reelsville, was before Justice Denny to-day. The day for his preliminary hearing was set for Thursday, Dec. 3i, 2 o'clock. A number of Reelsville citizens were in the city, among them being Ed Block, the clerk in Counts's store, who was with the murdered man at the time of the shooting. Black ran away immediately after giving up his money to the robbers. Gray was made to don the sweater and other clothes he is thought to have worn on the night of the murder and was then made to face Black. He would not look the young man in the eye. Black positively recognized Gray as having been in the store in the evening. but was not so sure about Gray being one of the men at the door. He was sure, however, that Gray was in Reelsville the night

# OVERDUE STEAMER.

Allan Liner Scandinavian Eighteen

Days Out from Glasgow. BOSTON, Dec. 24.—There are no tidings of the overdue Allan Line steamer Scandinavian, now eighteen days out from Glasgow. The steamer Caspian, of the same line, which left Glasgow five days after the Scandinavian and traversed nearly the same course the latter should have taken, saw nothing of her. Captain Pickering, of the McLain is said to have recognized in Caspian, reports that he encountered the usual winter weather in crossing the Atlantic. The Caspian encountered a northwesterly storm yesterday, when the ship was within seventy-two miles of this port and, for safety, she was put about and headed off shore until the snow ceased. The Scandinavian is a three-masted iron steamer, of 2,100 tons burden, built in Glasgow, and carries a crew of forty-four men, not including the cattlemen. She is com-

manded by Captain Stewart, whose home is in Ayrshire, Scotland. The other officers are: First officer, Ailson; second officer, McCalan; chief engineer, Scott. On her trip to this port she carried no passengers, but had on board a miscellaneous cargo.

### She is owned by the Allans, of Glasgow.

It is related that the curves could be plainly seen, and that change of pace was observable. The machine was engaged to do the practice The main idea is to save the arms of the human pitchers, who are usually called on to pitch for practice batting. Of course, most of the pitchers need all the practice they can get, but if the Princeton pitchers

When the human pitcher gets ready to send in the ball, he glares at the batter, rubs mud on the ball, shakes his head to indicate that the catcher has 'given the wrong sign, hitches up his knickerbockers, rubs his perspiring hand on his shirt front, throws his pitching arm aloft like Liberty defying a Cummunipaw ferryboat, kicks his free foot as though trying to drop a goal from field, swings his pitching arm like a farmer cutting corn, and then permits the ball to wend its way toward the batter.

These preliminary maneuvers may be said to be sufficient warning of the impending curve, drop or straight one, as the case may be, and if the batsman gets hit, it is usually due to rattles. However, when the willow wielders are compelled to face a piece of iron on two wheels, that has no shirt front bearing the club initials, no knickerbockers to hitch up, no hands with which to rub dirt on the ball, and no eyes with which to glare at the batter, the effect on the hitter will be decidedly terrifying. Without a word of warning the ball sud-

of Blue Island, Ill. CHICAGO, Dec. 24.-The Calumet State Bank, of Blue Island, failed to-day. The bank made an assignment in the County Court to Melville C. Eames. A statement was filed, showing that assets are \$87,669 and the liabilities \$68,000. The failure was due, it is claimed, to a run on the bank which followed the suspension of the National Bank of Illinois and which was kept up until to-day. The liabilities consist principally of deposits. The assets are securities which it is asserted can be realized on if properly handled, and if sufficient time is given by the creditors. Attorney Eames, who filed the assignment, stated, however, that the failure was the result of bad management on the part of the former administration, whose investments made it impossible to put the bank in good shape. Several of the directors of the defunct National Bank of Illinois held an informal

meeting to-day. No plan of action, how-ever, was decided on. One of the directors even denied that the meeting had been held.
